

MISSION

We build secure, compliant AI and data platforms for regulated enterprises and government organizations. Our mission is to translate advanced technology into real-world systems that scale responsibly, operate reliably, and create measurable impact.

OUR SERVICES

AI & DATA PLATFORMS (FOR REGULATED ENTERPRISES)

We design, build, and deploy secure AI systems and data platforms that operate in high-compliance environments.

- ◆ AI/ML Systems & Production MLOps
- ◆ Secure Data Pipelines & Large-Scale Storage
- ◆ Cloud & High-Performance Compute (HPC) Infrastructure
- ◆ AI-Powered Analytics & Predictive Modeling
- ◆ Enterprise Data Platforms & Internal AI Tools

REGULATORY, SECURITY & COMPLIANCE ENGINEERING

We help organizations operationalize compliance for AI, data, and digital infrastructure in regulated environments.

- ◆ FDA Regulatory Strategy for AI/ML Systems
- ◆ Secure & Compliant Data Architectures
- ◆ Governance, Auditability & Risk Frameworks
- ◆ Regulatory Documentation & Technical Writing
- ◆ Corporate Governance for AI Systems

GOVERNMENT & ENTERPRISE PROGRAMS

We support high-impact government and enterprise initiatives that require deep technical and regulatory expertise.

- ◆ DARPA / NIH / NSF Proposal Development
- ◆ Grant Strategy & Technical Writing
- ◆ AI Solutions for Public Sector & Large Enterprises
- ◆ Digital Transformation for Government & Regulated Industries
- ◆ Applied AI for Large-Scale Systems

PRICING

Base: \$90 per hour (custom quotes available on request)

WHY CHOOSE US?

We offer consulting and services backed by a trusted network of highly qualified professors, researchers, and industry experts from institutions such as UCLA, MIT, Stanford, Oxford, UCSD, UCR, NYU, and others. With expertise in deep technology, our team spans diverse domains—including the arts, sciences, and engineering. We specialize in building cutting-edge, scalable, and secure solutions tailored to complex, regulated environments always acting in the best interests of our clients.
